

Plan's international campaign "Learn without Fear" envisions a world where children can go to school in safety and expect a quality learning experience without fear of threats of violence. The campaign aims to put an end to violence against children in all schools. It is a truly global in scale campaign that places special focus on the 48 developing countries in Africa, Asia and Latin America in which Plan works.

Learn Without Fear targets **3 of the most common and damaging forms of violence** in schools:

- sexual violence
- bullying
- corporal punishment

The **main elements of campaign** include:

- Persuading governments to outlaw all forms of violence against children in school, and to enforce those laws.
- Working with school leaders and teachers to create violence-free schools and promote alternative discipline methods to corporal punishment.
- Creating a global momentum for change, including increased resources from international donors and governments to tackle violence in schools in developing countries.
