Children on the Move Working Group

Members of the Children on the Move Working Group are finalizing the concept paper delineating the area of focus and fixing future actions to be taken. The concept paper is expected to provide comprehensive definition of the concept of Children on the Move (CoM), the context and the reasons for focusing on the CoM, risks and opportunities for migrating children, the current responses and failings, and the ways to move forward.

The Working Group is a follow-up to the International Conference on Children on the Move held in Barcelona in October 2010. The Group is not only responsible for carrying out the agenda agreed at the conference but also for identifying new challenges and looking for solutions.
